Sky General Trading is an independent privately owned Freight Forwarding, express and logistics Company providing exceptional services to commercial clients, private individuals and agents worldwide.

Aware that a freight forwarder must be close to both its customers and the airports from where the flights operate, Sky General Trading has opened offices at the main hubs where its customers operate from.

This has enabled our company to focus not only on sales and customer services, but also supervising of cargo loading/unloading. We offer our clients low-cost and high quality sea freight and logistic solutions both on import and export to all over the globe.

We have a wide range of clients in different sectors and understand each client is unique with individual requirements for this reason we recruit the best individuals throughout the industry.

We are always moving with technology therefore Sky General Trading has made major investments in information technology and we have state of the art in-house cargo systems which enable us to offer an impeccable service for all forwarding and logistics requirements.

In addition we have formed associated partnerships in all major countries to give worldwide network coverage.
